

Assignment5

Samantha Deshazer

April 2022

1 Abstract

The purpose of this assignment is to compute the page visit counts of Wikipedia pages over a period of time given the input.dat file. Two python scripts were created to be used in command and piped to an output file.

2 Command Used

```
cat input.dat — ./mapper.py — sort — ./reducer.py
```

```
>
```

```
output.dat
```

3 Result

Refer to output.dat
